

SPONSOR & EXHIBITOR OPPORTUNITIES
WESTERN REGION 59TH ANNUAL MEETING
PACIFIC RIM CONFERENCE
July 31 to August 4, 2018

Please join IPPS 2018 for a unique sponsorship opportunity. IPPS 2018 is charting new waters and creating new business opportunities. The 2018 Pacific Rim Conference will bring together international contacts from Australia, China, Hawaii, Micronesia, New Zealand, Singapore and the United States.

The 2018 conference is not *just* a unique business opportunity. Your sponsorship and continued support is necessary for the success of IPPS. Your sponsorship provides IPPS the ability to continue connecting plant propagators, researchers, scientists, teachers, students, and our industry, with each-other. IPPS is the only organization that brings everyone together in a non-competitive nature that allows free exchange and sharing of plant propagation and production knowledge.

Your sponsorship will be recognized on the IPPS website, through introductions during meeting proceedings, in the conference brochure, on signage displayed throughout the entire conference, and your company logo will display on IPPS website with link to your company's website.

Thank you for your support of IPPS. With your support IPPS will continue to seek & share knowledge, ideas, and innovations that benefit all of us in plant propagation and production.

Thank you again for your support.

Please direct any questions to the following IPPS committee members:
