Global warming and climate change are realities and its impact is being felt in the environment all over the world.	

Come and experience **HOBART**

Don't miss this wonderful opportunity for networking with others from the horticultural world. Tasmania, an isolated island state off Australia's south coast, is known for its vast, rugged wilderness areas, largely protected within parks and reserves. On the Tasman Peninsula, the 19th-century Port Arthur penal settlement is now an open-air museum. In Hobart, the port capital, Salamanca Place's Georgian warehouses now house galleries and boutiques. Its Museum of Old and New Art has a contemporary edge.

HIGHLIGHTS

- Key Note Speaker will be **Paul Boland** of Ball Australia, the changing face of propagation in Australia.
- Pre conference tour starting in Launceston on **19th through to 26th. Includes full conference registration and 4 nights accommodation at The Wool Store**
